Litigation-Proofing and Proving your Patent Claims

Essential training course for patent professionals: understand how claims are construed differently in Germany, UK and USA through fact-based scenarios.

Format:
Bespoke training

CPD:
6 hours for your records (depending on your requirements)

Certificate of completion

Course overview

The law and interpretation of patent claims varies widely in different jurisdictions. Understanding how patent claims are interpreted in different regions is essential when trying to prove patent infringement and validity in order to protect an organisation's primary assets. This training course has been specifically designed for all patent professionals doing business in a complex multi-jurisdictional environment.

The training programme, presented by our expert speaker faculty, will include fact-based scenarios and case examples, with comparisons of the USA, UK and German approaches to claim construction and validity determination. The speakers will provide recommendations for both litigating patents and preparing patent applications to the best advantage.

Attending this training course will provide the perfect opportunity for interaction with experts in the field, as well as other like-minded participants, who understand the challenges you are facing. There is also time during the training for you to ask your questions and discuss any issues of particular concern in relation to patent construction.

Benefits of attending

By attending this training course you will:

- **Understand** how your patent claims will be construed in Germany, UK and USA
- **Get to grips with** the divergent methods employed in the three jurisdictions to interpret similar claim language
- **Rationalise** the disparate effect of the doctrines of equivalents in the three jurisdictions
- **Compare** the distinct litigation arguments and strategies that would be used in each of the three jurisdictions to construe similar claims
- **Explore** the major claim interpretation approaches with interactive panel discussions of real-life cases

Who should attend?

This training course is a must-attend event for:

- Patent professionals in private practice, including patent attorneys and lawyers
- Heads of IP, heads of patents and in-house patent counsel at every level
- Patent engineers and inventors

Plus all whose responsibilities include the need to understand the scope of patent coverage in USA, UK and Germany.

Reviews

★★★★★

Very interesting. The comparisons between the different jurisdictions were very helpful.

Andreas Leijon
Senior Patent Attorney
Alfa Laval Corporate AB
