Advanced Veterinary Pharmacovigilance

10-11 May 27
+ 3-4 November 27

Including the main requirements of Volume IXB, an update on the proposed EU Regulation (2019/6) on Veterinary Medicinal Products and the impact of Brexit.

Format:
Live online

CPD:
12 hours for your records

Certificate of completion

Course overview

This two-day course offers a thorough examination of EU Regulation (2019/6) on Veterinary Medicinal Products, alongside Veterinary Good Pharmacovigilance Practices (VGVP). In addition, we will explore the implications of The Veterinary Medicines (Amendment etc.) Regulations 2024.

Designed for professionals seeking both clarity and applicability, the course features interactive sessions where delegates can engage directly with our experienced trainer. Participants will have the opportunity to discuss current challenges, share insights, and gain practical guidance to apply in their day-to-day work.

Benefits of attending

- **Explore** the European regulatory framework and understand the impact of the new EU pharmacovigilance legislation
- **Learn** the key requirements of Veterinary Good Pharmacovigilance Practices (VGVP) and the Pharmacovigilance System Master File (PSMF)
- **Gain** practical insights into pharmacovigilance training and reporting within licensing and distribution agreements
- **Understand** how to conduct product safety reviews, signal detection, and benefit–risk assessments effectively
- **Look** at strategies for risk management and crisis management to ensure robust compliance and operational readiness

Who should attend

This course will be beneficial to those who have some experience of veterinary pharmacovigilance and is a good follow-on course from the *Introduction to Veterinary Pharmacovigilance*, which is also run by Management Forum.

Adverse event monitoring and drug safety officers, including QPPVs and deputy QPPVs, together with personnel from regulatory affairs and registration departments, will find this event useful.

The course can be used as part of the training to become a QPPV or deputy QPPV.

Programme

Day 1

The PSMF

- The PSMF - purpose and maintenance

PSMF Appendices

PV training

- Requirements for PV training
- Who trains whom and when?
- Training records, maintenance and updates
- Role of QA and HR in training

Product safety reviews

- The safety review committee
- Timings for safety review
- Record keeping for safety review meetings

Company core safety information

- Core safety information
- How to determine what to include and what to exclude in a company core data sheet (CCDS)
- Maintenance and development of a CCDS
- QRD template

Compliance and PV

- Basic principles
- Measuring compliance
- Quality versus quantity in safety reports

PV reporting in licensing/distribution agreements

- What types of agreements exist?
- Audits of pharmacovigilance capabilities in partners
- What agreements need to be in place for PV reporting?
- PV reporting agreements – what needs to be covered?
- Monitoring PV agreements – what happens if it goes wrong?

Day 2

Signal detection requirements – EU & VMD

EV Vet DWH demo

Signal detection/benefit-risk and risk management

- Signal detection requirements – EU & VMD
- The pharmacovigilance system
- Signal detection and analysis: what is required?
- EV Vet DWH demo

Audits and inspections: are you ready?

- What are inspectors looking for?
- Inspection findings and outcomes
- Implications of the proposed EU pharmacovigilance legislation

Risk management dealing with an alert

- Crisis management
- Communication with the public

Presenter

Declan O'Rourke

Declan O'Rourke has over 20 years' experience in industry where he has held technical, marketing, product development, clinical development, production and pharmacovigilance roles.

He is a veterinary surgeon, holds a Diploma in Marketing, a Master of Business Administration and a Fellowship of the Royal College of Veterinary Surgeons. He now directs Ortec PV Consultancy Ireland specialising in pharmacovigilance and represented IFAH-EU in the VICH Working Group on pharmacovigilance.

He is Honorary Associate Professor in Veterinary Pharmaceutical Development at Nottingham Veterinary School and Past President of British Cattle Veterinary Association.

Reviews

★★★★★

Clear and useful presentation. I think the webinar helped me clarify some points and confirm my understanding.

Marina Brancheva
QPPV
Alfasan
Nov 4 2026

★★★★★

Declan has a very engaging and encouraging way of presenting even highly formal processes in an interesting and accessible manner. He brings in many practical examples and insights from his own experience, which are extremely helpful in understanding the topics. He actively encourages participation and takes the time to address individual questions very thoroughly.

Inke Krupka-Dyachenko
Global PV Manager
Boehringer Ingelheim Vetmedica GmbH
