Additional Risk Minimization Measures (aRMMs) and Their Effectiveness

2 December
+ 15 June 27, 14 December 27

Delve into the world of additional Risk Minimization Measures (aRMMs) and explore everything from the regulatory framework surrounding aRMMs to their impact on patient safety and healthcare outcomes.

Format:
Live online

CPD:
3 hours for your records

Certificate of completion

Course overview

This course delves into the world of additional Risk Minimisation Measures (aRMMs), providing a thorough understanding of their development, implementation and assessment. Participants will explore the regulatory framework surrounding aRMMs, learn how to design effective risk minimisation strategies and evaluate their impact on patient safety and healthcare outcomes. This course combines theoretical knowledge with practical insights, enabling attendees to enhance their skills in managing and monitoring aRMMs in their organisations.

Benefits of attending

- **Gain** in-depth knowledge of aRMMs, including their purpose, development and regulatory requirements
- **Learn** how to create and implement effective risk minimisation strategies tailored to specific safety concerns
- **Discover** methods for assessing the effectiveness of aRMMs and making data-driven improvements
- **Stay** informed about the latest regulatory guidelines and best practices for aRMMs
- **Explore** the ethical aspects of implementing aRMMs and ensuring patient safety

Who should attend?

- Pharmacovigilance specialists
- Drug Safety Officers
- Regulatory affairs professionals
- Clinical research associates
- Medical affairs personnel
- Risk management professionals
- Healthcare Quality Assurance specialists

Programme

Introduction to aRMMs

- Overview of additional Risk Minimisation Measures
- Importance and objectives of aRMMs and their effectiveness evaluation

Understanding global regulatory guidelines for aRMMs

- Key regulatory requirements and compliance
- How new safety data affect decisions and benefit-risk balance

Principles of designing risk minimization strategies

- Designing Effective aRMMs
- Case study on aRMM implementations

Practical approaches to implementing aRMMs

- Implementation Strategies: Engaging stakeholders and ensuring adherence
- Real-world scenarios and problem-solving

Methods for monitoring and assessing the impact of aRMMs

- Data collection, analysis, and reporting
- Ethics in aRMM Implementation

Presenter

Graeme Ladds

Graeme Ladds, Director of PharSafer, has over 30 years' experience in the pharmaceutical industry. He began his career in 1989 at Ashbourne Pharmaceuticals as Head of Drug Safety & Medical Information, before going on to become Head of Global Pharmacovigilance at Shire Pharmaceuticals.

He later founded his consultancy and specialist CRO, PharSafer Associates Ltd, where he has supported companies in establishing pharmacovigilance systems, conducting audits across Europe and the USA, developing SOPs, acting as a QP, and supporting regulatory inspections.

Since 1994, Graeme has also been involved in the monitoring of medical devices, including drug–device combinations, structural devices and electrical medical devices. His experience spans clinical trials and global device vigilance, alongside pharmacovigilance activities across both clinical development and post-marketing phases.

Course dates

2 December	**Live online** 09:00-12:30 **UK (London)** (UTC+00) *Course code 16598*	GBP **400** EUR **560** USD **640**
15 June 27	**Live online** 09:00-12:30 **UK (London)** (UTC+01) *Course code 17239*	GBP **350** ~~400~~ EUR **490** ~~560~~ USD **562** ~~640~~ **Until 20 Apr**
14 December 27	**Live online** 09:00-12:30 **UK (London)** (UTC+00) *Course code 17541*	GBP **350** ~~400~~ EUR **490** ~~560~~ USD **562** ~~640~~ **Until 19 Oct**

How to book

Reviews

★★★★★

It was a excellent training program and I recalled liked the way Mr. Graeme Ladds has delivered the topic in a more systematic way from the introduction of the topic and then towards the ways reasons for the implementation of RMMs to promote and enable patient safety along with the live examples for various medicinal products that's required RMMs.
