Ensuring Clinical Research Quality & Patient Safety

This course covers Good Clinical Practice (GCP) principles, ensuring participants understand the ethical and regulatory foundations of clinical research, including integrity, safety, consent, data management, and compliance.

Format:
Bespoke training

CPD:
1.5 hours for your records (depending on your requirements)

Certificate of completion

Overview

This course provides an essential overview of Good Clinical Practice (GCP) principles, ensuring that participants understand the ethical and regulatory foundations of conducting clinical research. Topics covered include research integrity, participant safety, informed consent, data management, and compliance with international and federal guidelines.

Benefits of attending

- **Understand** the main principles of Good Clinical Practice (GCP)
- **Ensure** ethical conduct and participant safety
- **Know** the importance of data integrity in clinical trials

Who should attend?

- Clinical research professionals, including clinical research associates, investigators, and study coordinators
- Medical writers, regulatory writers, and publication professionals
- Quality assurance specialists and compliance officers in pharmaceutical and clinical research organisations
- Anyone involved in clinical trial documentation, regulatory submissions, or scientific publications seeking to improve their understanding of good practices and ethical guidelines

Run this programme in-house for your whole team

Coming to IPI Academy for your in-house training provides an all-inclusive service which gives you access to a wide variety of content, learning platforms and delivery mechanisms as well as your own personal training adviser who will work with you from the initial enquiry through to feedback and follow-up after the programme.

With over 600 trainers, all practitioners and experts across a huge range of fields, we can provide the training you need, where you need it, when you need it, and at a price which suits your budget. Our approach to tailored learning and development consists of designing and delivering the appropriate solution for each client.

For your FREE consultation and to find out more about how we can work with you to solve your training needs, please contact our training advisers:
