Effective Deviation Management Systems in Pharma

Master pharmaceutical deviation management in just 1 hour. Learn root cause analysis, CAPA processes, and compliance requirements to ensure product quality and safety.

Format:
Bespoke training

CPD:
1 hours for your records (depending on your requirements)

Certificate of completion

Course overview

Managing deviations effectively is a key component of a robust quality management system and supports the continuous improvement of pharmaceutical processes and product performance.

Occurring at any stage of a pharmaceutical product's lifecycle - development, manufacturing, or supply operations - deviations must be properly documented, investigated, and analysed to identify root causes and prevent recurrence. Failure to manage deviations adequately can pose risks to quality, compliance, safety, and the efficacy of pharmaceutical products intended to save lives.

This course will explore the crucial steps involved in the overall management of deviations in the pharmaceutical industry.

Benefits of attending

- **Know** the fundamentals of deviations management
- **Understand** the steps and tools involved in root cause analysis and Corrective and Preventive Action (CAPA)
- **Learn** about of the different components of a good deviation report
- **Be aware of** the risks involved in the inadequate deviation management

Who should attend

This course is ideal for professionals in the following industries:

- Pharma
- Biotech
- Medical Devices
- Life Sciences (particularly those involved in handling deviations)

Additionally, this course is well-suited for professionals in pharma and related industries who want to understand the fundamentals of deviation management and its impact on both products and business. It is also beneficial for anyone interested in staying updated on the latest regulations and industry trends affecting pharmaceutical deviation management.

Run this programme in-house for your whole team

Coming to IPI Academy for your in-house training provides an all-inclusive service which gives you access to a wide variety of content, learning platforms and delivery mechanisms as well as your own personal training adviser who will work with you from the initial enquiry through to feedback and follow-up after the programme.

With over 600 trainers, all practitioners and experts across a huge range of fields, we can provide the training you need, where you need it, when you need it, and at a price which suits your budget. Our approach to tailored learning and development consists of designing and delivering the appropriate solution for each client.

For your FREE consultation and to find out more about how we can work with you to solve your training needs, please contact our training advisers:
